

## RESIZABILITY 📱💻

### ✨ Login Page:

Entry boxes are falling off page smaller Phones ✓

### ✨ Sign-Up Page:

Entry boxes are falling off page smaller Phones ✓

### ✨ Tile:

Button bar does not look good  
Comment button to far right smaller Phones

### ✨ Profile Page:

Following and followers kinda fucked up on iPad

### ✨ Tab Bar:

Lettering and icons are messed up on iPad

### ✨ Comment Page:

Add comment looks UGHLY

## TRASH FIRE STUFF 🔥🗑️

### CSS 🎨

Remove comment page header (*Emma plans on doing this*) ✓

✨ Load More Comments Button is ugly (*Siddhi planning on it*) ✓

More padding within the AddComment component (*Emma plans on doing this*)

Load More Comments scrolls you to the bottom, maybe you can make this dynamic or change it so it starts scrolling where the button bar is?

Non-Sticky headers on profile (*siddhi's working on it*) ✓

## FIREBASE 🔥

✨ Friend Feed Not Working

✨ Search not case sensitive + Search based on username && name (*Jon*)

✨ Lazy Load will reload all things prior to the Loading count and everything after, change this so it will load only things after. Aka, save memes that are currently loaded and only (*Mia plans on doing*)

## OTHER

✨ Routing (*Jon*)

✨ Firebase is in Developing mode? I think anyone can read/write to our database?

✨ WE STILL HAVE OUR PLIST ON GITHUB BAD BAD BAD

✨ Test Meme Pulling & Pushing from Firebase  
WILL THIS RUN ON ITS OWN????

## MULTIPLE 🧑💻

Icon Page for Selecting Default Image (*Mia plans on doing*)
